

# MANAGED CLOUD

## No muss, no fuss

Have other things to do besides manage your cloud environment? No worries. Otava managed cloud has you covered. We work with you to determine which cloud servers and configurations you need, deploy and then monitor/manage to keep them running 24/7. Feeling ambitious? Excellent. Let's build your perfect cloud solution today.

“  
**OTAVA overdoes it in credentials, and they overdo it with maintaining best-in-class secure and stable environments. They really drew us to the type of vendor we wanted to work with.**

”

Andrew Madonna  
Vice President

### Peace of mind found here

Eliminate the need for data center resources with our expert staff who will take care of all things maintenance for you.

### Cost optimization you won't find anywhere else

SprawlGuard® technology is a unique, powerful tool included with all Otava cloud services that's specifically designed to help you manage your cloud spend.

### Powerful security and compliance built from the ground up

Our data is encrypted in transit and at rest in all of our secure, compliant cloud nodes designed to meet the exacting standards of regulated industries like healthcare, finance and ecommerce.
