

SPECIAL PRICING ON **COLOCATION** 40%-75% OFF

FOR A LIMITED TIME IN SELECT LOCATIONS

Are you considering colocation for your hybrid IT needs? Now is a great time!

We understand that the value of your business is built around your data. And where you put that data...well, it's all about location, location, location. Our security measures include multiple alarm systems, DDOS protection, encryption in transit and at rest, 2 factor biometric authentication and 24/7/365 surveillance to protect your most valuable asset. Otava colocation is specifically geared towards supporting and protecting your mission-critical applications with multiple power sources, diverse fiber paths and top-tier connectivity providers.

Right now, when you choose either of our secure compliant Mid Michigan or Metro Detroit data centers, you could get **up to 75% off pricing!**

Yes - you read that right.

We're making it easier than ever to start colocation services with Otava. Discounts of 40%-75% make it easy to choose the market-leading secure, compliant colocation solution to protect your most critical business data. Oh, and when we say compliant, we mean it...

HIPAA
